AND

THE CANGEMI FAMILY

ARE PROUD TO SUPPORT

MAGGIE'S MISSION

AS IT CELEBRATES THE

6TH ANNIVERSARY

ANGELVERSARY GALA

Welcome!

**IT'S
GLOW
TIME!**

**Thank you for helping us celebrate
Maggie's love of life and children, working
together to find cures for pediatric cancers,
and helping families with children affected.**

THANK YOU FOR BEING PART OF MAGGIE'S MISSION.

I have had the honor and pleasure of attending this gala and celebration of Maggie for years. Though I am disappointed that I am not able to be with you tonight, I know it will be another powerful and meaningful event.

As a pediatric oncologist and cancer biologist, I work to develop treatments that maximize the success of currently available medicines, and to ultimately devise new therapies that are precise, curative, and safe. Your support plays a vital role in understanding the causes of childhood cancer, including the kind that Maggie had, and using this essential knowledge to develop effective therapies. I am excited to share three breakthroughs that would not have been possible without you and Maggie's Mission.

FIRST

Based on research supported by Maggie's Mission, together with clinical investigators at MSK Kids, we developed a new clinical trial of the recently developed experimental drug called elimusertib, to establish its safe use in children with cancers, including rhabdoid tumors in particular.

This study is actively enrolling patients across the entire country.

We anticipate completing this trial in 2024, which would allow us to combine this new drug with other drugs in order to develop effective therapies, which are so urgently needed.

SECOND

We constructed precise molecular maps of rhabdoid tumors, the type of childhood cancer Maggie had. Besides being the most complete maps of rhabdoid tumors to date, these results are also beginning to reveal candidate targets for new immunotherapies that are fundamentally different from all other treatments. We have begun to test these targets with the goal of advancing them for medical development for patients.

LASTLY

Maggie's Mission and your support enabled us to determine how rhabdoid tumors respond to a recently approved new drug called Tazemetostat (Tazverik®), which works for some patients with rhabdoid tumors but not for others. We defined the molecular principles that explain how Tazemetostat works, pointing to two new combination treatments that should be more effective. We have already begun discussions with pharmaceutical companies to develop a new combination clinical trial.

We are confident that continued research will one day lead to effective treatments for children with cancer like Maggie's and many others.

**THIS CANNOT BE DONE WITHOUT
YOUR SUPPORT.**

**THANK YOU AGAIN FOR YOUR
TRUST AND COMMITMENT TO OUR
RESEARCH.**

Sincerely,

Alex Kentsis, M.D., Ph.D.

Director, Tow Center for Developmental Oncology Associate Member,
Sloan Kettering Institute and Department of Pediatrics, Memorial Sloan Kettering
Cancer Center Associate Professor of Pediatrics, Pharmacology,
and Physiology & Biophysics, Weill Medical College of Cornell University

**As the sun sets
on another year without
you Maggie, we want to say
not a day goes by that we
don't think of you.
We love and miss you.**

**Proud supporter of your
foundation helping children.**

Maggie's Bucket List

Found in a notebook after she died.

Bucket list

- See northern lights
- hike Grand Canyon again
- skydive
- meet at least internet friend
- go legit rock climbing
- travel across the country in car
- visit pyramids
- make to be an adult.
- hand food and cloths to homeless

Thank you to Mike Elliott and the All Veteran Group, for helping us realize Maggie's Bucket List Skydive, and to JK Consulting for the introduction and making the jump happen.

The Good We Do, thanks to you!

This information is updated almost weekly as our foundation grows and helps in more ways than ever.

MAGGIE'S
MEAL PROGRAM
AT RMH-NY

OVER \$2 MILLION RAISED SINCE 2017 WITH \$165.7K DONATED IN 2022

Just four months after losing our sweet girl, Maggie's Mission became an official non-profit in September 2017, which happens to be pediatric cancer awareness month. Since then, we're proud to have raised over \$2 million (and counting!) to fight pediatric cancers and assist families in need.

Thank you!
